AC 598 Contemporary Topics in Accounting (3 credit hours) <i>Prerequisite: AC 304</i>		

The Master of Science in Accountancy Program requires completion of 30 credit hours (69 if all thirteen Business Foundation and Accounting Foundation Courses must be completed). The foundation courses provide a basis for success in the program.

The three Business Foundation Courses (9 credit hours) include the following courses or equivalents with minimum grades of C: EC 521 Fundamentals of Economics; EC 522 Business Statistics; and FN 521 Fundamentals of Finance (FN 521 has prerequisites of AC 521, EC 521, and EC 522). These courses may be waived if foundational requirements were successfully completed at the undergraduate level.

The ten Accounting Foundation Courses include the following courses or equivalents with minimum grades of C: AC 201 Accounting Principles 1; AC 202 Accounting Principles 2; AC 303 Intermediate Accounting 1; AC 304 Intermediate Accounting 2; AC 305 Intermediate Accounting 3; AC 312 Cost Analysis & Budget Control; AC 321 Federal Taxes 1; AC 341 Accounting Information Systems; AC 431 Auditing; and MHR 463 Business Law. These courses may be waived if foundational requirements were successfully completed at the undergraduate level.

The above map shows the recommended path to complete the degree programs in one year if all foundational requirements are met however, the programs may be completed two to four years. The courses are regularly offered in the semester in which they are shown in the map.

Electives are most often offered in the Spring and Summer and are comprised of graduate Accounting and Finance courses that are not part of the core curriculum.

Classes are typically offered in the evenings from 6:30 p.m.—9:15 p.m. Monday—Thursday.
