<b>MB 593</b> CEO Insights (0 credit hours)		

**The Professional MBA Program requires completion of 33 credit hours** (45 if all four Business Foundation Courses must be completed).

The four Business Foundation Courses provide a basis for success in the program and include the following courses or equivalents with minimum grades of C: AC 521 Fundamentals of Accounting; EC 521 Fundamentals of Economics; EC 522 Business Statistics; and FN 521 Fundamentals of Finance (FN 521 has prerequisites of AC 521, EC 521, and EC 522). These courses may be waived if foundational requirements were successfully completed at the undergraduate level.

The above map shows the recommended path to complete the degree program in two years, however, the program may be completed three years if the foundational business courses are required. The courses are regularly offered in the semester in which they are shown in the map.

Electives are most often offered in the Spring and Summer. The offering is comprised of graduate business courses that are not part of the core curriculum. Students may create a concentration by selecting both electives within the same business field, e.g., Management, Marketing, Finance. Two electives may be chosen from an approved list of courses that varies and is published prior to the opening of registration. One global elective is recommended, but not required.

Classes are typically offered in the evenings from 6:30 p.m.—9:15 p.m. Monday—Thursday.
